"The Soft skills are the door to obtain that you want, all the time involving a positive environment and thoughts, it can complement the technical skills"

What we do

In the Skyfall POD, we are convinced that soft skills should coexist with product and other technical skills. Incorporating them into our toolkit when facing the daily challenges at work can help us achieve our goals. Moreover, we can extend their use and see them as *life skills* since they will surely help us face and overcome difficult situations.

Therefore, we aim to generate and socialize content related to soft skills to support the continuous improvement and growth of other Globers since we believe that a happier and more human Globber will undoubtedly do a better and more meaningful job.

“The Soft skills are the door to obtain that you want, all the time involving a positive environment and thoughts, it can complement the technical skills”

ICEBREAKER

HI!

En este espacio puedes agregar una breve introducción o premisa del tema que vas a abordar.

Procura que tu párrafo no exceda este cuadro de texto.

Puedes usar alguna frase que te permita conectar con tu audiencia para cerrar este párrafo.

“No matter what your line of work, even if it's in one of the technical professions, your degree of success depends on your ability to interact effectively with other people”

Dale Carnegie

Principles

(Communication strategies)

Basics of communication

- Plan a strategy
- Quality of conversation = Quality of results
- Connection (Channels*)

Conversation planning

Initial part for plan a strategy to have a good conversation is to have this break down:

- Topic:
 - Objective
 - Key Messages
- People:
 - Emotions
 - Perspectives
 - Opinions

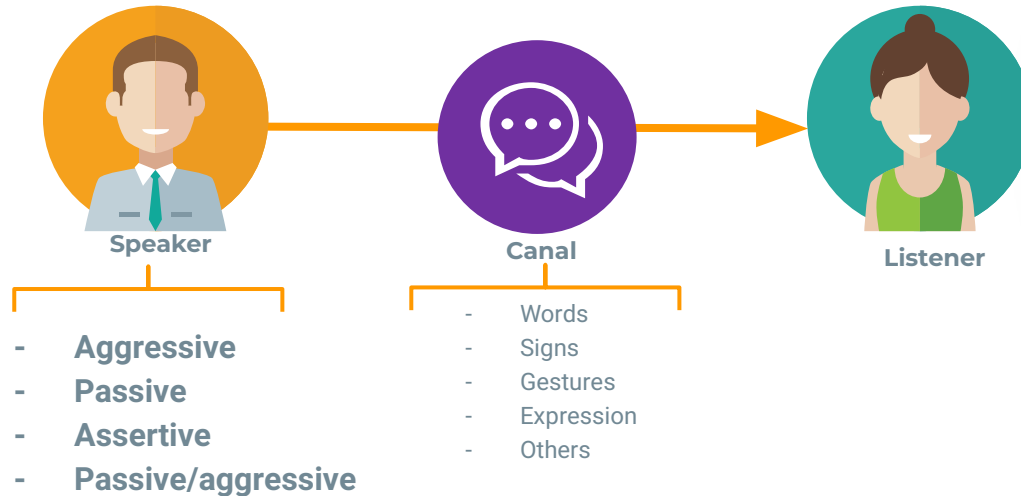

Types of communication

#AssertiveConversations

Let's practice

What is passive and aggressive communication?

Steps:.

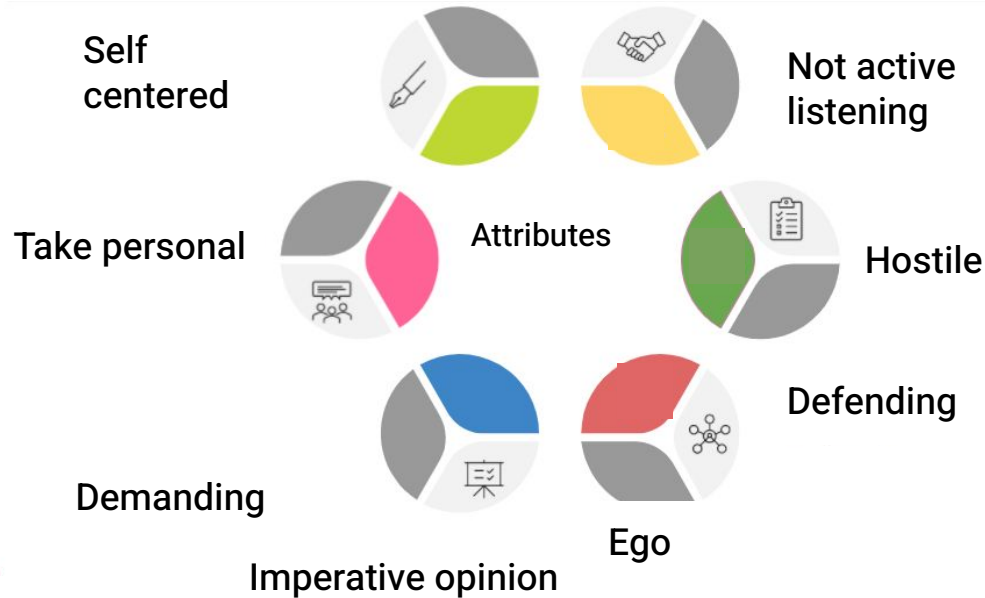

We want to hear you! In your opinion what is:

#Workshop Name

Aggressive

Had you had any of this behavior?

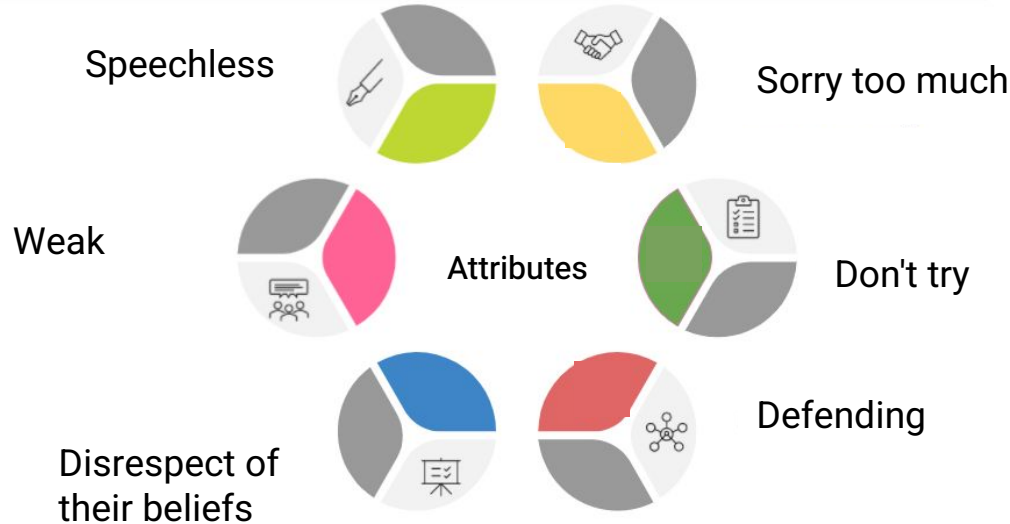

Some tips to handle:

- Stand by
- Postpone
- Neutral
- My point of view
- Being polite
- Confident

Passive

Have you had any of this behavior?

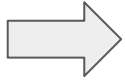

Some tips to handle:

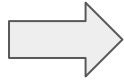

- Ask opinions with names
- Icebreakers comments (Where are you from?)
- Give opinion and double check with them
- Try to broke Language barriers

#Assertive Communication

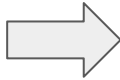

Passive/Aggressive

You ate six donuts! **Aggressive**

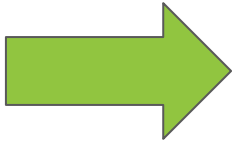

Six donuts were eaten by you. **Passive**

You ate six donuts and I did not get any. Do not worry, its cool. I can see donuts are very important to you.

Passive/Aggressive

**Using Positive
language**

**Hey, do you know what happened with
the six donuts?**

Assertive

#Assertive Communication

AC -Assertive Communication tools

- Confident
- Respect
- Empathy
- Ask their point of view
- Focus on the conversation

Passive

Filter

Proper Balance

Aggressive

- Chat (Best practices)
- Ask the favorite Name
- Inclusive
- Cultural
- Not ego
- Flexible

LET'S TRY

DEFINING TOGETHER:

Goal: to define what an active and passive listener is.

Steps

1. Thinking on communicate

- 2 volunteers using the camera, each one will think on the last fantastic trip you had.
- They stare at each other, thinking about the trip without saying anything.

Next Steps

1. Thinking on communicate

- Two volunteers will think on the last fantastic trip you had.
- In pairs they stare at each other, thinking about the trip without saying anything.

2. Passive Listener

- One is emitter another receiver
- Receiver ignores emitter
- Emitter tries to get receiver's attention.

Next Steps

1. Thinking on communicate

- Everybody think on the last fantastic trip you had.
- In pairs they stare at each other, thinking about the trip without saying anything.

2. Passive Listener

- One is emitter another receiver
- Receiver ignores emitter
- Emitter tries to get receiver's attention.

3. Active Listener

- One is emitter another receiver
- Receiver pays attention and may ask
- Emitter can answer questions from receiver.

Next Steps

1. Thinking on communicate

- Everybody think on the last fantastic trip you had.
- In pairs they stare at each other, thinking about the trip without saying anything.

2. Passive Listener

- One is emitter another receiver
- Receiver ignores emitter
- Emitter tries to get receiver's attention.

→ How did you feel?

Tips

(For communication)

Communicate from 0 to 100 Km/h

Face him/her/it/them... everybody for the first time!

Be polite and good listener (say hi, thanks, please)

Total Confident mode when you talk with person with High seniority

Answer in peace (bad emotions away!)

Paraphrasing when it's required

Write and give clear steps and instructions, Paraphrasing if it's needed

Filter (As in your instagram), **negative things in positive language**

Please DO NOT multitask while...

Handle non verbal communication

#Assertive Communication

Assertive Communication and Remote Work

- Validate with the counterpart if it's required or not the camera in the communication process
- Background to use camera
- Body Language
- Cultural hacks
- Test connection & tools
- Notifications (ON/OFF)
- No Distractions
- Voice Tone

What's the most complicated issue for you?•

- If you can not be in status connected, notify others about your absent
- Try to answer in short time when someone typed to you
- Proper use of chat (Concrete ideas)
- Do not interrupt the idea of the other, (If it's required to interrupt to change topic do not feel afraid and use a kind way)
- Double check ideas transmitted in a writer language (Do not type with bad temperament and contextualize and propose focus ideas)

Non Violent Communication

1. Don't judge and don't take personal

I see / I hear / the situation is...

2. Identify feelings

I feel

3. Identify Needs What is behind the feeling?

I need; I like

4. Ask (Positive, Facts, clear)

Please, Could? Are you ok if?...

5. Avoid confrontation (If the communication's environment is hard, try to request a break to lost charge in the conversation and take it after a breath)

LET`S PRACTICE

Give us an example
for any situation to be
transmitted using
positive language

Questions?

THANK YOU!

Complementary content applied to Assertive communication

Goal: Identify how we can avoid broken communication in the day-to-day interaction in our projects

AGENDA

1. Ice breaker using Mentimeter- We will provide an unclear instruction and attendees will add in Mentimeter the struggles they had when trying to follow the given instruction
2. Product mindset explanation applied to all roles (Apply this concept by role)
WH questions

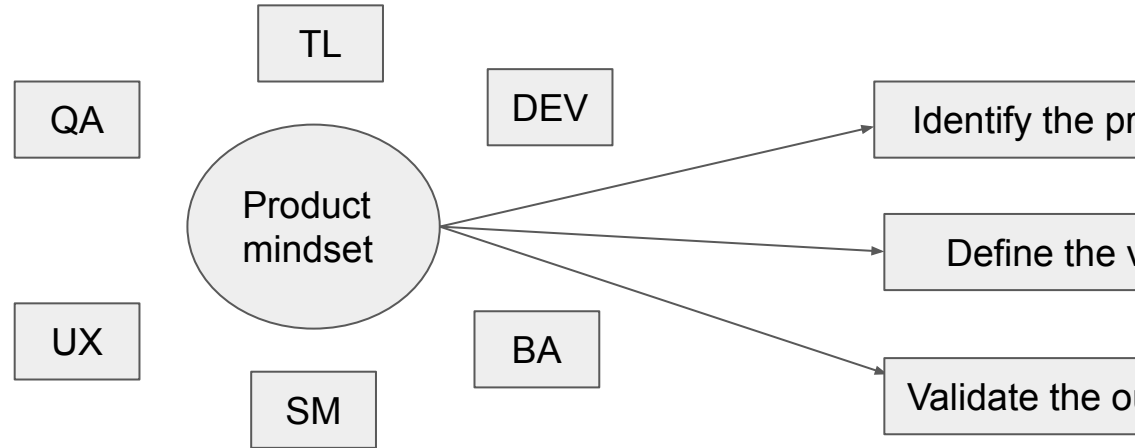

AGENDA

3. Tips to resolve situations
4. Video to analyze a real situation, how do you solve this situation?
5. Key words

1. ICEBREAKER

2. PRODUCT MINDSET EXPLANATION

3. TIPS TO RESOLVE SITUATION		
Pain points	Workaround	Impact
Passive position		
Meetings with no goals defined	Set agenda and add to the invite. If someone else is hosting, request the agenda	Extended meetings Meaningless meetings Unclear next steps
Feeling unprepared for cold conversation	Drive the conversation to identify the conversation goal in the first part of the call and rephrase the information for a shared understanding. "Let's take a step back", bi-directional approach to give and get instructions.	Missing out important information Unclear next steps Unanswered questions Different points of view on expectations

Language barrier	*Record the call *Take notes *"Let me organize my ideas" *Use closed caption *Module the meeting according to the velocity required *Generate a diagram if it's required (if you are visual person). *Explain misunderstandings as soon as they occur	Potential for Unanswered Different po expectation
No ownership	Ask - Avoid leaving out questions (all questions are important) Get and give space to make and correct mistakes. It is worth discussing issues - to build trust	
Meetings going too fast	Slow the meeting's pace (regardless of the role) We interject, we don't interrupt, rise hands and if required, open the mic and ask questions.	• The o • Road - time o • Longe • Additi • Imple - function
Knowledge transfer	Request further information or spaces offline to go over detailed information	No doubts a

4. VIDEO TO ANALYZE REAL SITUATION

- Min 0:41-1:17 -> <https://www.youtube.com/watch?v=AAhIFD9czks&t=31s>

5. KEY WORDS

1) I'm not sure, but I'll look into that right now.

2) Allow me to look into that and get back to you.

3) That's an excellent question. Let me get the right information and get back to you.

4) I can't be certain, but I can give you a better answer by (day/time).

5) That is not my area of expertise, but I can look into it if you want. (Solo si la pregunta no está en tu área de conocimiento).

6) I think I know someone that can answer your question better.

7) If you come back in (day/time) I can give you a better answer.

==10) "Let me jump in here and suggest a possible solution."

5. KEY WORDS

- 1) "Excuse me, may I interject for a moment?"
- 2) "Sorry to interrupt, but I have a quick point to make."
- 3) "If I may, I'd like to add something to what you're saying."
- 4) "Can I jump in here for a second?"
- 5) "Just to build on what you're saying, I think..."
- 6) "May I offer a different perspective on this?"
- 7) "Sorry to interrupt, but I have some information that might be relevant."
- 8) "If I could just interject for a moment, I think we're missing a crucial point."
- 9) "I don't mean to cut you off, but I think we're getting off track."

Practice scenarios

Scenario 1: A software team is struggling to meet a project deadline due to changes in priorities and unclear expectations from the PO.

Scenario 2: A dev/QC has been working on the same pod for several months and is feeling demotivated and disengaged from the work.

Scenario 3: The TL is struggling to understand what is happening during the different ceremonies, the team members didn't mention anything, no questions, no comments.

Scenario 4: A software development team is reluctant to demonstrate participation or interest regarding multiple processes, (chats/emails were not visualized/replied, meetings were not attended, or the participation is zero)
